Some Technical Specifications

A leader in the category, My Glass Studio has been serving the hospitality market for 15 years now. Our aim is to create “gift boxes” for the food that add value to the offering of a restaurant and conform to the professional kitchen requirements:

- Durable products (high resistance to breakages and chipping).
- Colours that are fused into the glass (no scratching etc) with no Lead or Cadmium release.
- Products compatible with all modern kitchen appliances (90°C/200°F dishwashers, 120°C/250°F preheating chambers, tested for use in microwave ovens at 800W for 10 minutes).

Glass Studio is **not** a glass factory
It is a “**Boutique factory**” specializing in glass dinnerware for professional use.

We are small enough to adapt to specific environments and big enough to be able to handle our luxury clients professionally and exclusively. What we aim for is a **plate that adds value**, not simply function.

Dinnerware that is handmade, authentic, premium and sexy; dinnerware that will make your food presentation look special and unique, sophisticated and classy.
